PROFESSIONAL SUMMARY

Motivated and detail-oriented full-stack web developer seeking a challenging position in a dynamic tech-driven company. Passionate about building scalable and user-centric digital solutions using modern technologies such as React.js, Next.js, and Node.js. Eager to contribute to impactful projects, grow professionally, and collaborate with innovative teams.

EXPERIENCE

Full-Stack Developer & Project Manager – STIKC

2025 - <https://stikc.org/>

- Led project development from concept to launch, managing timelines and coordinating tasks while architecting and building both the backend services and frontend interface.

Frontend Developer – Bev Team

2025 - <https://bevsnr.com/>

- Implemented advanced CSS techniques and optimizations that reduced page load times and improved the overall site speed.

Frontend Intern – 88ninety

2025

- Contributed to a web platform that automates biannual employee evaluations and delivers performance insights for continuous growth. Developed onboarding guides used by future cohorts.
- Translated Figma designs into responsive React components using Ant Design and collaborated with cross-functional teams to enhance UI quality.

Graduation Project – e-Kiralık

2025 - e-kiralik-mauve.vercel.app

- Built a full-stack rental platform with e-contracts, reminders, and analytics using Next.js, Express.js, and Sanity.
- Reduced manual paperwork time by 70% and improved communication between tenants and landlords.

Frontend Project – mo-directory

2025 - <https://mo-directory.vercel.app/>

- Developed a Next.js 15 platform for publishing and exploring scientific/startup ideas with Sanity CMS.
- Integrated GitHub auth, dynamic API content, user profiles, and mobile-friendly UI.

Intern – Digital Skills21 Institution
2025 - <https://newshub.solexad.com/>

- Developed a CMS-powered news platform with 100+ monthly visitors.
- Achieved 100% mobile responsiveness and improved content loading speed by 40%.

Intern – Çelebi Kardeşler Engineering Consultancy
2024

- Contributed to 3+ frontend/backend projects.
- Decreased bug count by 25% through code review and refactoring.

Web Developer – Solexad, Dubai
2023 – 2024 - <https://solexad.com/>

- Improved website performance by 45% through frontend optimization and UI enhancements.

Web Developer, SEO & Designer – Al Hilal Education
2023 – 2024

- Increased organic web traffic by 60% over 3 months through on-page SEO and UI-UX improvements.
- Created responsive interfaces for 2 educational portals serving 5,000+ users
